*everybody's talking about
terrorism,
boderism,
materialism*

*everybody's talking about
capitalism
democracyism,
homosexualism*

isn't it a drag

*everybody's talking about
bush,
korea,
iran*

*everybody's talking about
israel,
bin laden,
saddam*

things are getting bad

*shouldn't we be talking about
collaboration,
education,*

uniting nations

shouldn't we be talking about

environment

retirement

the solution

but we change the constitution

do you wanna be God's friend?

well, sing it then

and let the world know
